

## Spacepower Conference 2024 Agenda

### Day 1

0700 - 0900	Registration Opens	
0845-0900	Color Guard Opening	
0900 - 0915	Welcome Remarks	Bill Woolf, SFA
0915 – 1015	Opening Keynote	General Saltzman Setting the Stage for the Conference: We will explore publicly acknowledged threats and highlight the significant benefits of preventative actions that attendees can implement. This session aims to empower participants with the knowledge and tools necessary to proactively address these challenges, ensuring a safer and more secure future.
1015- 1045	USG Threat Brief	More details will be provided soon.
1045 - 1100	Creator League	Exhibit Hall Opens
1100-1100		AM Break
1100 - 1120		Industry experts will outline their methods for identifying, characterizing, and responding to a variety of threats, including orbital debris, cyberattacks, directed energy, supply chain vulnerabilities, and information warfare.
1120 - 1140	Industry Threat and Response	Join us for a fireside chat where we will delve into operational topics including Integrated Mission Deltas, the role of Space Force Generation in supporting Combatant Commands, and how the Space Force Service Component contributes to USSPACECOM.
1140 - 1220	Space Operations Command (SpOC) Space Operations for Great Power Competition (GPC)	Lunch
1220 - 1330		Join our panel as we explore emerging missile threats, including hypersonic missiles and fractional orbital bombardment capabilities. We'll discuss how these advanced threats are transforming the way warfighters detect, understand, decide, and engage targets.
1330 - 1400	Technologies for Missile Warning & Missile Threat Enhancements	Join our panel as we highlight the collaborative dynamics of joint, allied, and partner operations through SPACECOM and Operation Olympic Defender. We will also explore the roles of Service Components and introduce exciting new and emerging partnerships.
1400 - 1440	Partnering to Win   CCMD Focus	Join us for a government and industry panel discussion on the Victus series, where we'll delve into key lessons learned and outline future plans.
1440 - 1510	Tactically Responsive Space	
1510 - 1530		PM Break

1530 - 1610	Industry Space Domain Awareness (SDA) Panel:	Explore how emerging technologies are advancing Space Domain Awareness (SDA) capabilities. This discussion will cover industry innovations in tracking, sensors, algorithms, and data management, and highlight valuable insights we can gain from each other Join us for a presentation focusing on test, training, and readiness activities. We will dive into increasingly complex exercises, the development of training and education for Great Power Competition (GPC), and enhancements to the Operational Test and Training Infrastructure
1610 - 1640	Ready to Win   STARCOM Focus	Join us for a panel featuring Junior Officers and Enlisted Guardians as they propose innovative ideas to strengthen the 'Guardian Identity.' This session highlights the perspectives of every Guardian and Operator in shaping our collective future
1640 - 1710	Guardian Identity	
1710 - 1725	Day 1 Final Remarks	
1730 - 1900	No Host Happy Hour	Join us for a lively No-Host Happy Hour in the Exhibit Hall. This informal gathering is a fantastic opportunity to network, unwind, and explore the exhibits at your leisure. Don't miss out on this chance to mingle with industry leaders and innovators from across the conference

## Day 2

0900-1000	Opening Keynote	Lt. Gen. Philip A. Garrant This session will provide an in-depth overview of the major acquisition programs currently in progress within the SSC.
1000 - 1040	PEO Panel	Program Executive Officers (PEOs) will discuss both their ongoing and upcoming Request for Proposals (RFPs), outlining the future landscape of procurement and partnership opportunities.
1040 - 1100		AM Break Join us for an industry fireside chat exploring how leaders are adapting to the directives from the Office of the Secretary of Defense (OSD) and U.S. Space Force regarding commercial space strategies and the Commercial Augmentation Space Regulation (CASR). This discussion will provide valuable insights into the industry's strategic responses and innovations.
1100- 1120	Industry perspectives on Commercial Space Integration	

1120 - 1200	Emerging Technologies Panel	Join our panel as we explore the integration of emerging technologies in space, on the ground, and the vital links between them that are poised to position the U.S. Space Force for success in the Great Power Competition. This discussion will dive into how these advancements are shaping strategic capabilities and readiness.
1200 - 1300		Lunch
1300 - 1330	Space Futures Command (SFC)	Join us for an enlightening presentation by the Space Futures Command (SFC), where we will dive into the organization's vision and mission. The session will cover the strategic plans for its establishment and implementation, focusing on the roles of its people and the future trajectory of the command.
1330 - 1410	Story Telling or Sci-Fi Panel	Join a diverse panel of novelists, screenwriters, filmmakers, and social media influencers as they explore the intersection of storytelling and space operations. This session will deep dive into how science fiction and creative narratives can provide fresh perspectives and innovative solutions to current dilemmas, architectural challenges, and operational strategies within the U.S. Space Force.
1410 - 1440	Space Development Agency	Join us for a comprehensive presentation by the Space Development Agency, detailing the current status of launch campaigns, operational successes, key lessons learned, and future directions.
1440 - 1520	A Venture and Startup View	Join us for a panel on investment priorities, innovative technologies with startup focus.
1520 - 1530		PM Break
1530 - 1545	Afternoon Announcements	
1545 - 1630	CMSSF and Guardian Identity	A keynote addressing the cultural evolution over the past five years, changes in initial training, key personnel topics, and the evolving role of Guardians as warfighters.
1630 - 1700	Workforce Development Fireside Chat	Explore strategies and best practices for expanding the space enterprise workforce across USG, industry, and academia. Share lessons learned and benchmark innovative ideas across organizations.
1700 - 1715	Day 2 Final Remarks	
1830-	Spacepower Gala and Awards Dinner	

### Day 3

0900- 0930	Opening Keynote	TBA
------------	-----------------	-----

0930 - 1000	Launch	A panel discussion exploring the latest innovations and advancements in space launch technologies, highlighting key developments and future trends.
1000- 1030	In-space Capabilities	A discussion on in-space capabilities, covering the vision, strategy, prototypes, technologies, and demonstrations driving advancements in space operations
1030 - 1100	Break-through Ideas	Three dynamic, 10-minute TED-style talks from junior Guardians, early-career civilians, and industry professionals, offering fresh perspectives on the future of national security space and the Space Force.
1100 - 1115		AM Break
1115 - 1145	Let's Get Serious About Spaceports	Examine the impact of emerging technologies on the evolution of spaceports and their role in shaping the future of space travel.
1145 - 1230	Final Keynote	TBA
1300-	Conference Final Remarks	Bill Woolf
